

2014 MAP-APP COMPETITION WINNERS

The Map-App Design Competition illustrates both the importance of design for the visual display of cartographic data from a GIS and highlighted web-based mapping applications. Paper maps and applications entered in the Map-App Design Competition demonstrated the use of GIS for specific applications, and illustrated the importance of the visual display of geographic data in addition to overall user experience.

Professional Map Design Competition

- 1st – Jeyan Jebaraj
- 2nd – Victor Miranda and Adam Boarman (co-cartographers)
